

## Letter of Recommendation

To whom it may concern,

This letter is to recognize the efforts and work done by Mordor Intelligence for the custom report "United Arab Emirates Skincare Products Market (2021)".

The data and research provided has been very useful to our team and has definitely helped the structure and strategy in which we intend to develop our brand. We have made many adjustments based on the outcome of the report, and we believe it has made several significant impacts on our business.

Working with the team at Mordor Intelligence has also been great. The team is very accommodating, responsive, professional and friendly. The overall experience has been very pleasant, and we look forward to working with them again.

Warm regards,  
Salma Alshehry  
Business Development Manager

A handwritten signature in black ink, appearing to read "Salma", written over a large, faint, light-colored circular graphic.
